

Synopsis

**- REVISED POINT OF CONTACT, REVISED TO RAYMOND GREENHECK --
AFGHANISTAN ENGINEER DISTRICT SOUTH (AES) Firm Fixed Price
Contract for asphalt two lane road from Nawa to Lashkar Gah, Afghanistan**

W5J9LE-11-R-0015

19 Dec 2010

The project consists of the survey, design, material, labor, and equipment of a new approximately 21 km two lane, asphalt surfaced roadway from Nawa to Lashkar Gah, Afghanistan. The roadway will consist of a 6 meter wide paved carriageway with 1.5 meter wide gravel shoulders. The road passes through heavily irrigated terrain and must be constructed to minimize disruption of the irrigation of the area. The contract shall require replacement of all existing, culverts, erosion control structures, retaining walls, and causeways and design and construction of any additional necessary drainage/retainage structures. A complete design shall be provided by the Contractor for all new structures. Large 4 meter span culverts will be required where the road passes over major irrigation canals. All structures shall be designed and constructed as required in accordance with the design guides. Road signs and pavement markings shall be applied as appropriate. The Contractor will develop new horizontal road geometry. The normal road grade shall be less than 8%. The maximum road grade shall be 10%. Any grade greater than 8% shall not be sustained for more than 100m. No construction activity will be allowed until the proposed roadway alignment and profile have been approved. The roadway will begin and end at logical approved points in coordination with local government officials (as applicable). The Government intends to make one award as a result of this solicitation. Award of a contract will be made to the responsible offeror who submits the lowest priced, technically acceptable proposal that is both realistically and reasonably priced for the work to be performed. Offers will be evaluated in accordance with the evaluation criteria stipulated in the solicitation. An offeror may not receive award, even if it has the lowest-priced, technically acceptable proposal, if its price proposal fails to demonstrate that it understands the scope of work required by the solicitation. The applicable NAICS code is 237310 (\$28.5M small business size standard). The resulting contract is for 560 days. The magnitude of construction is estimated between \$10,000,000 and \$25,000,000. Offerors are asked to submit their expression of interest on or before 07 January 2011, to the point-of-contact via email. The point-of-contact for this procurement is Raymond Greenheck, Contracting Specialist, USACE-AES, APO AE 09355. You may reach Mr. Greenheck at 540-662-6183 or via email at Raymond.r.greenheck@usace.army.mil

Requirements: DFAR 252.204-7004 Required Central Contract Registration (CCR) applies to this procurement. U.S. prospective contractors must be registered in the Department of Defense CCR database prior to award. Information on CCR registration and annual confirmation requirements may be obtained by calling 1-888-227-2423 or via the internet at <http://www.ccr.gov>. Electronic copies of the solicitation will not be accepted.

Solicitation Number W5J9LE-10-R-0015 will be available on or about 07 January 2011. The RFP (solicitation) and all further information will be posted to these websites:
